

Mulberry Paper

- the nature paper!

Acid free

Especially in our fast moving time we need new ideas and rethinking to stem the destructive exploitation of our planet with short-lived products. With the Mulberry Paper articles we try to use the circuit of nature ideally, without destroying it. So beautiful papers from and with the nature are accruing. Because using modern technologies and innovative, scientific methods doesn't necessarily accelerate the destructive exploitation of the natural resources of the earth. On contrary, when expediently used, it can add to reanimating beautiful old traditions and by that giving urgently needed food for thought.

In total harmony with the nature

Our natural papers are made from rapid renewable plant fiber, which is full degradable. The process of paper manufacturing is a very old art and this knowledge is used to maintain endless variations of papers, designs and surfaces.

Our papers are featured by high quality and are manufactured with a minimum of energy and chemistry.

The applications are as large as the consistence of the papers. It can be used for decorations, as wrapping paper, hangings, lamp shades, creative paper handicrafts, as writing paper, etc.

The mulberry tree. This is the starting material.
