## Decorated porcelain figures for inside and outside

- Paint with DecoArt paint
- Varnish with Cold glaze refine
- Get effects with mosaic
- Combine with Acrybellos

Give one's fancy full scope.

### Tip:

Florinos can be covered with Cold glaze refine (item-no. 38 380 00). Cold glaze refine is a lucent 2-component varnish. If you use it as a thin lucent finishing varnish you can dye the varnish. A surface as smooth as glass, give brilliant spotlights and attractions.

## Homedeco – Ideas for a stylish home

Several elements on different table cloths give atmosphere and special focuses.

### Tip:

For outside please use weather-proof DecoArt Patio Paint. Seal other paints with DecoArt Patio Paint colourless (item-no. 38 610 702), Cold glaze refine (item-no. 38 380 00) or a weatherproof varnish. Mosaic glue (item-no. 33 385 00) and joint compound (item-no. 14 601 00) are frost resistant and weatherproof.

### Tip:

Resin toner is available in opak, lucent and metallic in many different colours.

Tinplate-heart,  
11 cm  
item.-no. 25 060 00
