Nuno Felting

Creative scarfs
with fascinating
effects.

Rayher
HOBBYKUNST

MY CREATIVE WORLD!

GB

Nuno is a Japanese word for fabric. You use fine Merino wool for felting on smooth chiffon silk.

Individual eye catcher

Create your favourite scarf.
Choose from a wide range of colours.

Nuno Felting

Trendy scarfs with a personal touch.

Felt on filmy silk chiffon with Merino roving tuft super soft. By shrinking of the Merino wool the silk chiffon scarf gets smaller as well which will give fascinating effects. Use in addition for shiny details mulberry silk item-no. 53 656 02. We recommend for a fast and easy felting Mega-Felting fluid item-no. 53 640 00.

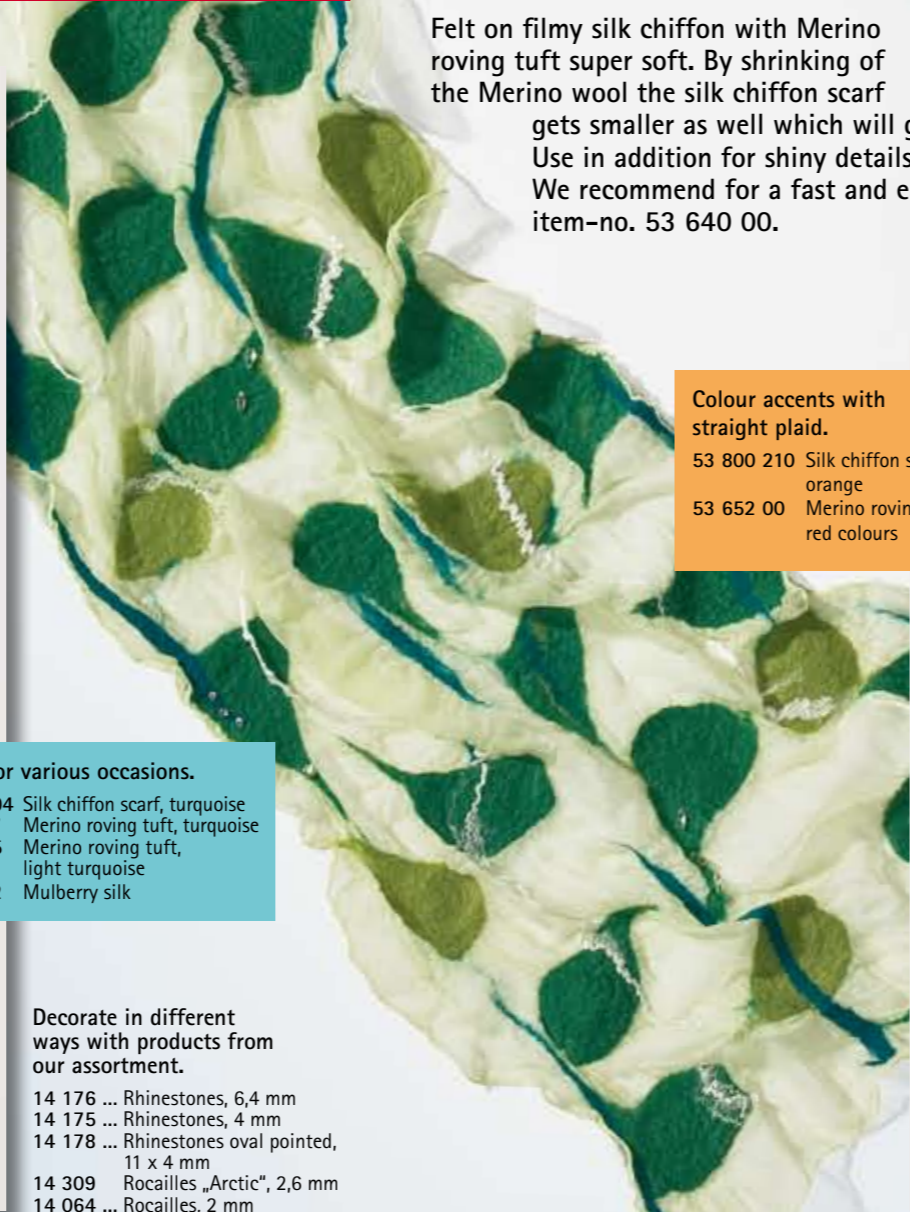

Colour accents with straight plaid.
53 800 210 Silk chiffon scarf, orange
53 652 00 Merino roving tuft, red colours

A scarf for various occasions.
53 800 404 Silk chiffon scarf, turquoise
53 655 07 Merino roving tuft, turquoise
53 655 65 Merino roving tuft, light turquoise
53 656 02 Mulberry silk

Decorate in different ways with products from our assortment.

- 14 176 ... Rhinestones, 6,4 mm
- 14 175 ... Rhinestones, 4 mm
- 14 178 ... Rhinestones oval pointed, 11 x 4 mm
- 14 309 Rocailles „Arctic“, 2,6 mm
- 14 064 ... Rocailles, 2 mm

Instruction

1. Lay out the bubble wrap approx. 20 cm longer on every end. The bubbles have to be on top.
2. Apply the scarf and mark some points on the edges and the long sides.
3. Remove the scarf and put aside. The area which has to be felted is mentioned in step 2.
4. Apply the motive: At first the mulberry silk fractional and afterwards the merino wool in bricks (imbricate). Arrange the mulberry silk in thin layers always under the merino wool (it will be the outside). The mulberry silk will only be felted in the combination with merino wool.
5. Put the scarf carefully on top, work in pairs.
6. Put gaze, fly screen fabric or a smooth foil on top.
7. Fill your mixing bottle with 250 ml warm water (it forwards the felting procedure) and approx. 10 drops of Mega felting fluid. Shake it well and moisten the first covered area carefully. Afterwards press the layers together with low pressure.
8. Carefully with low pressure! Felt the merino wool with circle moves of your hand. The wool should slide through the fabric.
9. Use again some bubble foil and create a "spool/core". Reel the scarf in.
10. Tumble without any pressure from inside to outside and return. Tumble the scarf from every side approx. 5 minutes.
11. Turn round the scarf and repeat this procedure again for approx. 5 minutes.
12. Just roll the scarf without the bubble foil and wrap it into the underlay foil.
13. Boost the pressure while tumbling.
14. Fold up the scarf (reverse side together) and roll along the long side. Tumble!
15. Fold up the front side together and tumble. Not too long as the front side might combine.
16. Roll the scarf from every side without the bubble foil.
17. Rinse out the scarf carefully.
